ABOUT ME

I am a passionate technology and gadget guy. Just like my idol Tony Stark, I love tweaking things and make it work (or make it work better). Especially when it comes to matters of utilizing and implementing technology in daily life habits. I love to share my excitement and my constantly-generating ideas with team member. Besides coding and using technology to improve daily life, I love spending time in my home studio making music and soundtracks for games (when not playing them). I am a huge fan of fantasy genre movies, books and games and a loyal dog person.

WORK EXPERIENCE

01/11/2021 – CURRENT – Athens, Greece
