To Whom it May Concern

Dear Sir/Madam,

Visiting Post-Doctoral Researcher: Dr Pantelis Broukos

I write to confirm that Dr Broukos will be a visiting post-doc researcher at Imperial College from 1/8/22 to 1/8/23. He will work on the topic of "Sustainable cities and optimization at different scales", covering the research domains of:

- Distributed Energy Resource systems;
- Civil infrastructure and wastewater, water supplies network;
- Low-energy carbon urban systems and interaction with the latest technologies like hydrogen-based technologies and CCS;
- Transportation grid and electric vehicles;
- Optimized integration of the above into the existing civil infrastructure grid.

Please contact me should you require any further information.

Yours sincerely,

Nilay Shah
